

# Meeting Protocol

**Date:** 2015-04-16

**Facilitator:** Armand Ghaffarpour

**Participants:** Armand Ghaffarpour, Simon Lindkvist, Jesper Olsson, Johan Tobin

## Objectives (5 min)

- Decide which part of the program that should be runnable
- Structure our application and start implementing it
- Have an executable program ready by Thursday

## Reports (15 min)

- Preliminary RAD uploaded to GitHub
- Presentation of domain model prepared
- Sketches of GUI are done
- LibGdx is still pretty unknown to all

## Discussion items (35 min)

- What part of the program should be runnable by Thursday?

## Outcomes and assignments (5 min)

- Be able to move an object in some direction using the keyboard
- Everybody has to learn more about the LibGdx framework and how we should integrate it with our application using MVC.

## Wrap up

- Next meeting on Monday 2015-04-20 12:00
- We are now ready for implementation and are going to start with it as soon as possible
